

100mm Conforming Bandage – Flexible First Aid Dressing

Specification Sheet

Product Description:

The **100mm Conforming Bandage** is a **flexible, lightweight, and breathable first aid dressing** designed to provide secure support for wound care, dressings, and injuries. Its **stretchable, soft fabric** easily molds to any part of the body, ensuring comfortable protection and effective coverage without restricting movement. Larger than standard conforming bandages, the 100mm width is especially useful for **covering larger wounds, joints, or limbs**, making it an essential item in both workplace and home first aid kits.

Specifications:

Attribute	Details
Product Code	
Width	100mm
Length	Standard roll length (stretched)

Material	Soft, stretchable, breathable fabric
Sterility	Non-sterile
Compliance	Suitable for use in workplace first aid kits (Regulation 3 compatible)
