

Eye Wash Ampoules – 10ml Sterile Saline

Specification Sheet

Product Description:

Eye Wash Ampoules provide fast, sterile irrigation for the eyes following exposure to dust, chemicals, or foreign bodies. Each 10ml ampoule contains preservative-free saline solution in a compact, easy-to-use design that ensures safe and effective flushing in emergency situations.

Perfect for first aid kits, workplaces, laboratories, and emergency responders, these single-use ampoules are an essential part of any eye safety protocol.
