

SPECIFICATION SHEET

Product: 100mm Conforming Bandage

Product Overview

The 100mm conforming bandage is a premium-quality, stretchable, and breathable dressing support product designed for secure coverage of larger wounds or injury sites. Its broader width offers enhanced stability and support, making it suitable for use on thighs, upper arms, or other large body areas. The non-woven material ensures gentle application, conforming to body contours while minimizing irritation.

Intended Use

Used in first aid, clinical, and sports care environments for securing wound dressings, managing sprains or strains, and providing light compression. Ideal for use on larger body parts in both professional and home settings.

Features & Benefits

- Width: 100mm
- Length: Approximately 4.5m (stretched)
- Soft, non-woven elastic fabric
- Breathable and lightweight
- Conforms to body contours for secure fit
- Non-adhesive – fasten with tape or clips
- Latex-free and hypoallergenic
- Single-use disposable
- Ideal for large wounds, limbs, or muscle areas
