

SPECIFICATION SHEET

Product: 50mm Conforming Bandage

Product Overview

The 50mm conforming bandage is a high-quality, lightweight, and stretchable dressing support product designed to provide light compression and secure wound dressings in place. This non-adhesive bandage conforms easily to body contours, making it ideal for use on small limbs, joints, or awkward areas. Its breathable and non-woven material ensures patient comfort while minimizing skin irritation.

Intended Use

Used primarily in medical, first aid, and sports care environments for securing wound dressings, providing light support to sprains or strains, and protecting injuries. It is suitable for single-use applications in both clinical and home settings.

Features & Benefits

- Width: 50mm
- Length: Approximately 4.5m (stretched)
- Material: Soft, non-woven elastic fabric
- Highly conformable to body contours
- Non-adhesive – requires tape or clip for fastening
- Breathable and lightweight for increased comfort
- Ideal for use in first aid kits, clinics, sports bags
- Cost-effective disposable option
- Latex-free
