

75mm Conforming Bandage – Flexible First Aid Dressing

Specification Sheet

Product Description:

The **75mm Conforming Bandage** is a **flexible and lightweight first aid dressing** designed to provide secure support for wound dressings, sprains, and injuries. With its **stretchable, soft material**, this bandage easily conforms to any body part, ensuring comfortable and effective wound protection without restricting movement.

Ideal for both **workplace and home first aid kits**, this conforming bandage is an essential item for managing injuries, securing medical pads, and offering gentle compression when needed.
