

# Burnshield Burn Dressing – 200mm x 200mm (Sterile Trauma Hydrogel Foam Dressing)

## Specification Sheet

---

## Product Description:

---

The Burnshield Burn Dressing 200mm x 200mm is a large, sterile trauma hydrogel dressing made from fibreless open-cell foam saturated with Burnshield's tea tree oil-infused hydrogel. It provides rapid cooling, pain relief, and protects against burn progression. The transparent, non-adherent gel allows continuous wound assessment without disturbing the injury. Safe, non-toxic, and suitable for all skin types, it is essential for emergency treatment in industrial, commercial, and home environments.

## Specifications:

---

Property	Details
Size	200mm x 200mm (8" x 8")
Material	Fibreless elastic polyurethane foam

Hydrogel Content	~96% purified water, tea tree oil, gelling agent
Sterility	Sterile, gamma-irradiated, single-use
Packaging	Individually sealed sterile foil pouch
Certification	CE / ISO-certified
Property	Details

## Contents:

---

- 1 x Sterile Burnshield Hydrogel Foam Dressing (200mm x 200mm)

## Applications:

---

- Emergency treatment for medium to large burns and scalds
- Suitable for industrial sites, commercial kitchens, and emergency response kits
- Ideal for superficial and partial-thickness burns

## Features and Benefits:

---

- Rapid heat absorption – stops burn progression by removing heat quickly
- Instant pain relief – cooling hydrogel soothes and reduces discomfort
- Non-adherent – won't stick to the wound, ensuring painless removal
- Clear gel – enables visual monitoring of the burn without removal
- Antibacterial properties – tea tree oil helps minimize infection risk
- Safe & non-toxic – suitable for all ages, including children

## PACKAGING:

---

Individually sealed, sterile foil pouch for single use.

Available as singles or a box of 50
