

Burnshield Burn Dressing – 600 x 400mm

Specification Sheet

Product Description:

The Burnshield 600 x 400mm Burn Dressing is an extra-large, sterile trauma dressing designed to provide immediate cooling and protection to burn injuries. Infused with hydrogel, it helps reduce pain, prevent burn progression, and rapidly cool the affected area. Its generous size makes it ideal for covering large surface area burns, such as the back, chest, thigh, or torso. Suitable for emergency responders, industrial sites, and any first aid kit requiring serious burn response capability.

Specifications:

Specification	Detail
Type	Hydrogel-Infused Burn Dressing
Dimensions	600mm x 400mm
Sterility	Sterile, single-use
Gel Base	Melaleuca alternifolia (Tea Tree) extract
Shelf Life	Up to 5 years (unopened)
