

First Aid Dressing (FAD)

No. 4 – Sterile Wound

Dressing Pad for

Emergency Care &

Compliance

Specification Sheet

Product Description:

The **First Aid Dressing (FAD) No. 4** is a **large sterile wound dressing pad** designed for the emergency treatment of medium to large wounds, cuts, and bleeding injuries. Featuring an **absorbent sterile pad with an attached conforming bandage**, it provides fast application, effective bleeding control, and secure fixation without the need for extra wraps.

An essential component of **Regulation 3 compliant workplace first aid kits**, the FAD No. 4 is also widely used in **hospitals, clinics, schools, and emergency response kits**. Individually sterile wrapped, it ensures maximum hygiene and readiness during emergencies.
