

Gauze Swabs 75mm x 75mm (8-Ply, Non-Sterile, Pack of 10) – Medical Dressing Pads

Specification Sheet

Product Description:

Our **Non-Sterile Gauze Swabs 75mm x 75mm (8-Ply)** are highly absorbent medical dressing pads designed for cleaning wounds, applying antiseptics, and cushioning injuries during first aid. Supplied in a convenient **pack of 10**, these swabs are essential consumables for hospitals, clinics, first aid kits, and home medical care. Engineered for reliability and cost-effectiveness, these swabs provide a soft and breathable dressing solution without compromising absorbency. Ideal for routine wound care where sterility is not required.
