

Single Eye Dressing – Soft Pad with Bandage

Specification Sheet

Product Description:

This Single Eye Dressing features a soft, low-adherent pad attached to a stretchable bandage, making it ideal for protecting and covering eye injuries. It is designed to provide gentle cushioning and shield the affected eye from further contamination, light, or injury until professional medical treatment can be provided.

Compact and easy to use, this dressing is a must-have in all compliant first aid kits for workplaces, schools, and public spaces.

Specifications:
