

Triangular Bandage – Non-Woven First Aid Sling & Emergency Wound Support Dressing

Specification Sheet

Product Description:

The **Triangular Bandage** is one of the most versatile tools in emergency care. Made from strong, non-woven material, this bandage can be folded into a sling for arm support, used as a pressure dressing for wounds, or employed to secure splints. Its lightweight yet durable design ensures it is suitable for both workplace and vehicle first aid kits.

As a Regulation 3 compliant item, the triangular bandage is a standard requirement for all South African first aid kits and plays a critical role in emergency preparedness across workplaces, schools, sports environments, and industrial sites.

Specifications:

Specification	Details
Product Code	TB-NW
Type	Triangular bandage
Material	Non-woven fabric
Size	Approx. 960mm x 960mm x 1360mm
Packaging	Individually sealed
